REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a cabinet opening structure for an apparatus having a sheet transporting member comprising first and second operating members are concealed when the side cabinet is closed as set forth in the claimed combinations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S COMMENT

Drawings

2. The drawings were received on 1/13/06. These drawings (Figures 1 and 4) are approved.

Applicants' Remarks

3. Applicants state the claimed invention allows the knobs 27 (first operating member) and 28 (second operating member) to be exposed and rendered operable by only the side cabinet 21b. Applicants further state that Gotoh et al. reference requires "at least two actions". The examiner agrees with the above statement; however, "only one action" is not part of the claimed limitation. The examiner also agrees both first and second operating members are concealed when the side cabinet is closed. Gotoh et al.

reference fails to disclose this feature because Gotoh et al. only discloses one operating member 75 is concealed when the side cabinet is closed.
